In this United States there are so many ways to spend money pleasantly that only three out of a hundred men, who live to be sixty-five years old, are independent—the other ninety-seven are partly or wholly, dependent on relatives or public charity for food, shelter and clothing.

Mr. Cummings began in a quiet voice. A few shouts of "louder" came far back in the hall but he had not proceeded far before the great throng was so still that every syllable was carried to the highest galleries. It was a long speech. Mr. Cumming suggested that to his hearers, but cries of "Go on," "Take your time." met him. He drove his points homeward and his audience was alert to clap them with shouted approval. At one point he chided the Chicago platform of the Republicans because it contained, he said, no word of hope for Ireland, no mercy for Armenia and because it "con-

scaled a sword" for Mexico. Back among the alternates a woman caped to her feet at the mention of Ireland, shouting hysterically some about "British tyranny in Ireland."

"That's the answer; we're not member of the league," Chairman Cumming salled back to her, but even as he spoke the sergeants at arms were moving down prevent further interruption and dele gates intent on their chairman's arraignof Republican policies, shouted Sit down.
